About Step by Step

Step by Step is a professionally-planned English development program for children ages 2 to 6 in a small group setting. Our goal is to provide students with a North American English program that focuses on the development of their language skills, as well as social, cognitive and artistic skills. This is accomplished through themed play, group activities, learning centers, and music.

Step by Step offers children the opportunity to learn English through games and structured activities. We believe that learning English on a daily basis will help children master the language more rapidly and confidently.

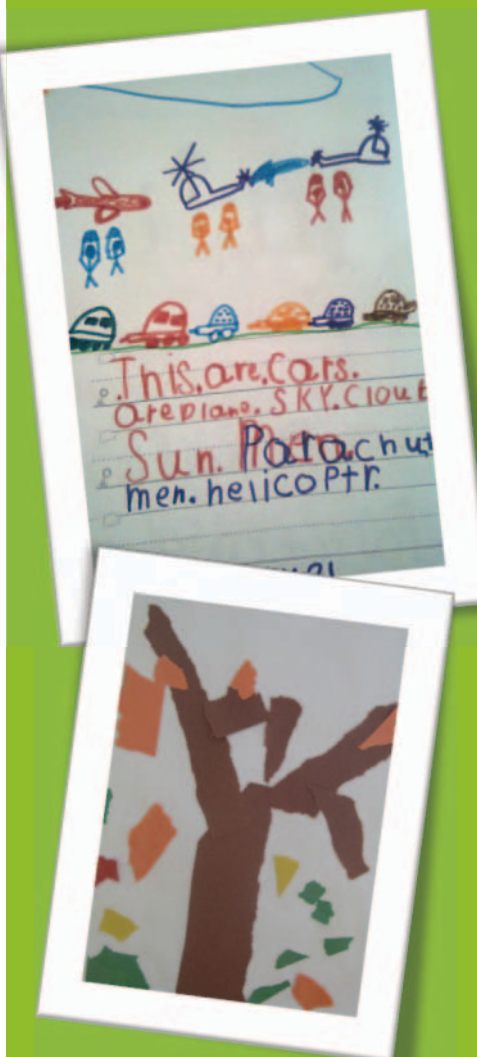

Children have access to a variety of resources such as books, music and toys from North America.

Step by Step Program

Step by Step Program is based on North American methods and is specially tailored for this age group. Step by Step program is thematic in order to engage children's interest, while at the same time; it is carefully structured, having specific learning outcomes.

Engaging children in music, drama and language activities such as stories plays an important part in our everyday learning.

Creativity

Our creative activities inspire children to express themselves artistically with various art materials: Painting supplies, pencils, crayons, markers, recyclables such as wallpaper samples, fabric pieces and collage materials; glue and scissors; various paper supplies and magazines.
